EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Applicant's attorney, **Mr. Christopher Brody** on Friday, November 7, 2008.

The application has been amended as follows:

In the Claims:

Claim 19, line 3, delete---**and/or**---, insert---**and**---

2. The following is an examiner's statement of reasons for allowance: After a review of the prior art of record, it is believed that the present invention is novel and non-obvious wherein no reference discloses recited structure of a ventilation tubing including a bush, an insulating layer and a cover sheet wherein the insulating layer is formed from a quartz-fiber wool having a thickness of between 6 and 15 mm and a specific surface weight between 65 and 150 g/m², nor the bush and the cover sheet formed of a plastic with a weave of interlaced filaments wherein the specific weight of the plastic sheet is substantially between 30 and 65 g/m² and a thickness

between 10 and 15 μ (microns), nor does the prior art disclose the structure also including a winding having a cross-section including a substantially planar base that bonded to the bush. U.S. 3,823,255 to **Le Gase et al.** discloses a similar device, but it does not disclose a bush including a plastic sheet having a weave of interlaced filaments with an insulating layer of a quartz-fiber wool, nor does **Le Gase et al.** disclose the specific weights and thicknesses recited. These specific dimensions are important in reducing weight of the tubing.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to **Patrick F. Brinson** whose telephone number is (571) 272-4897. The examiner can normally be reached on M-F 7:30-3:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, **Kevin P. Shaver** can be reached on (571) 272-4720. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system.
